Core Curriculum Report

The Core Curriculum Committee met on Wednesday, March 24th. Proposals by Appalachian Studies and Political Science underwent their second readings, and both passed through the committee. Time was spent discussing proposals from the Education programs in Art and Music to accommodate or to squeeze in more pedagogy hours. The committee felt that a limited-duration substitution was more appropriate in these cases than adding courses to the Core that only Art Education and Music Education students would ever take.

A proposal for Anthropology 203 underwent its first reading. The last meeting of the Core Curriculum Committee for this year will be on Wednesday, April 21st.
