The graduation rate includes those degree-seeking, full-time, first-time-in-college students entering in Fall 2002 and completing degrees within 150% of the usual time to completion. This includes students completing the certificate within one and a half years, associate's degree within three years, and / or the baccalaureate within six years.

** within the data indicates a category with three or fewer students. This information is suppressed due to student privacy issues.

Please note: The race / ethnicity categories used here were those in use at the time of admission of this group of students. New categories have been defined by the federal OMB since that time, and are in place for current reporting. However, as it is not possible to gather sufficiently comprehensive information to reclassify this group of students into the new categories, the older categories are used here.
