Addendum #1 to RFB P0005816
For Implementation and Project
Management to Shift Current
Citrix Infrastructure to the Cloud
October 16, 2018

Q1. Would you like everyone to get the same pricing from Citrix? If not one partner will get a significantly better price from Citrix due to deal registration. If you would like this to be truly competitive bid everyone should receive the same pricing from Citrix.

A1. Citrix will provide preferential treatment to one dealer, but there are other components to this bid other than Citrix items. The hope is that the bid will still remain competitive with the Citrix items and the other items included within this bid.

Q2. Other than price, what will factor in to awarding this bid?

A2. Pricing will be the primary factor in the award of this bid.

Q3. Per the attached RFB you requested QTY 2 Netscaler NSMPX 8905 Enterprise Edition and QTY 2 Netscaler MPX 8905 Advance Edition for a total of 4 Netscalers, is that accurate? If so we would like to discuss the business requirements for this.

A3. The 2 Enterprise are physical netscalers on premise at Shepherd, the 2 Advance Edition are the 2 required on the cloud server side.

Q4. Will this need to be purchased on a certain contract vehicle?

A4. This solicitation is a Request for Bid. The bid will be awarded based upon price and a purchase order will be issued based upon the awarded bid.
