

1) Open settings

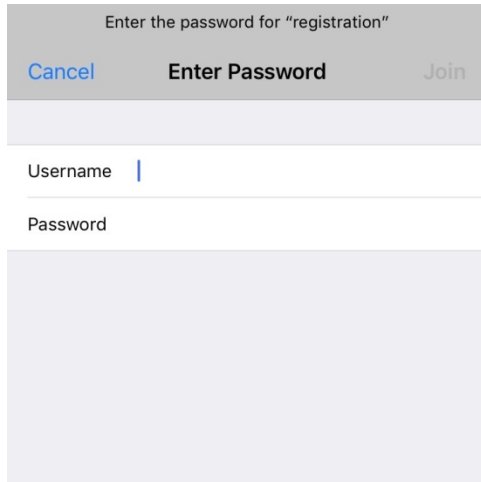

2) Select "registration" under the Wi-Fi tab

3) Trust the certificate setting

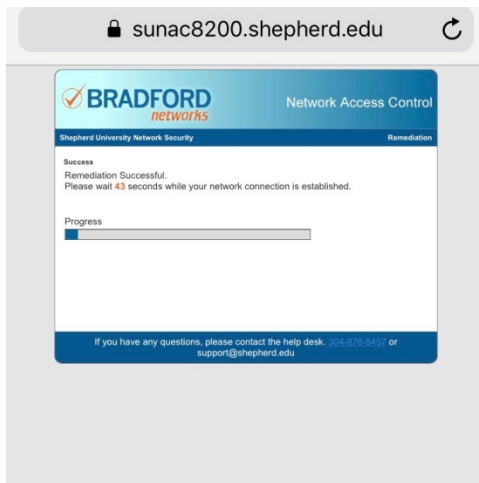

- 4) Enter user credentials – this will be the same as your Sakai log-in information

The image shows a registration form with a grey header bar containing the text "Enter the password for 'registration'". Below the header are three buttons: "Cancel" (blue), "Enter Password" (black), and "Join" (grey). Underneath the buttons are two input fields: "Username" and "Password". The "Username" field has a vertical cursor on the right side. The "Password" field is empty and has a light grey background.

- 5) Open your preferred browser and go to registration.shepherd.edu. Next to "Users" select "Start". If you are prompted by a screen that says "Username" and "Password", enter your Sakai credentials again and press "Download". It will display the following progress bar :

- 6) After the progress bar has completed, your device should be registered.
