

Example of Embedding for Sakai

You can paste the code into the Source area of the text area in Sakai or in the lesson area you can choose the embed option and paste the code.

Using Youtube

```
<iframe width="560" height="315" src="https://www.youtube.com/embed/EEIk7gwjgIM"
frameborder="0" allow="accelerometer; autoplay; encrypted-media; gyroscope; picture-in-picture"
allowfullscreen></iframe>
```

Now you can use the same code for videos other than Youtube by changing the URL:

```
<iframe width="560" height="315"
src="https://ia801602.us.archive.org/23/items/MIT6.0001F16/MIT6_0001F16_Lecture_01_300k.mp4"
frameborder="0" allow="accelerometer; autoplay; encrypted-media; gyroscope; picture-in-picture"
allowfullscreen></iframe>
```
