

Connecting a Mac with macOS 10.15 and higher to the Shepherd University registration wireless network

1. Go to the wireless icon on the upper right corner of screen. Turn Wi-Fi On.

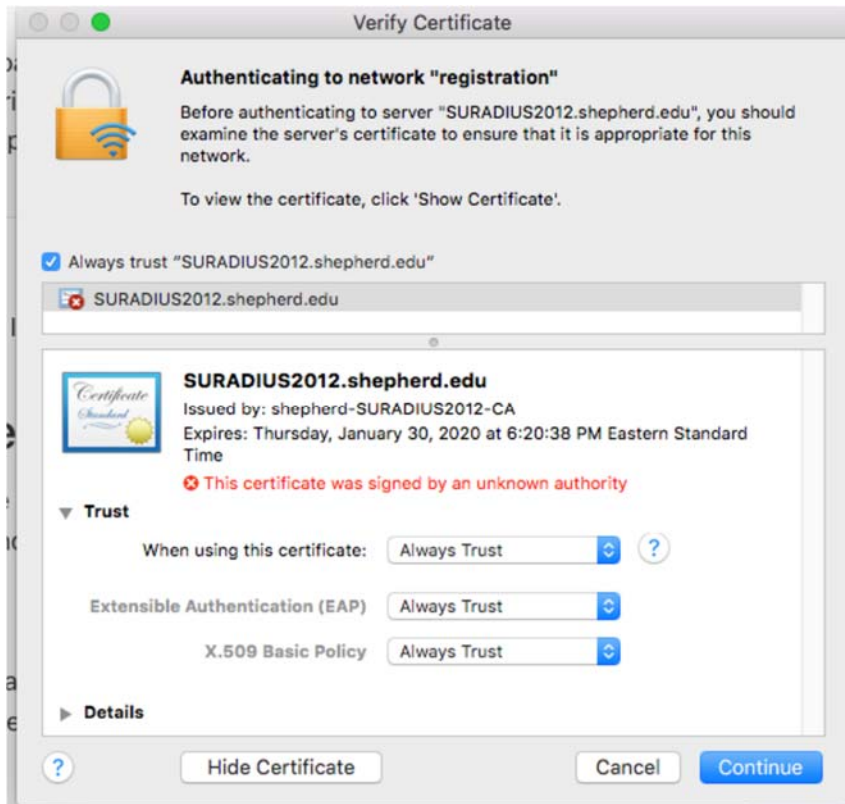

2. Select registration.

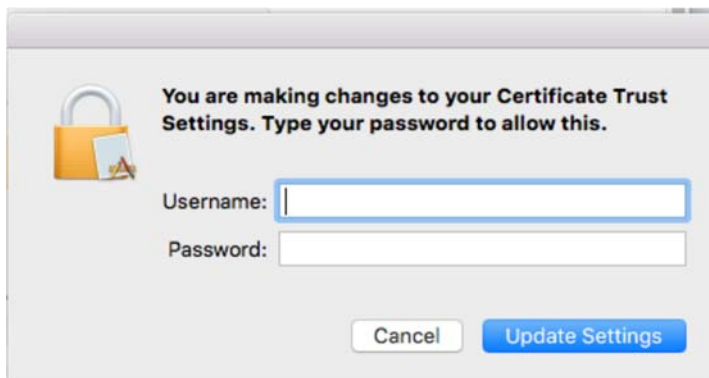

3. Click on Show Certificate.

4. Click on the triangle next to Trust and select Always Trust from the dropdown next to When using this certificate. Click on Continue.

5. Enter your computer username and password in the You are making changes... window. Click on Update Settings.

6. Go to <https://www.shepherd.edu/rhdeviceregistration/>. Scroll to the bottom of the page and fill out the Device Registration form. You do not have to connect with an Ethernet cable.
