

**COVID-19 PROCESS  
GUIDELINES WHEN  
STUDENTS ARE ILL, A  
CONTACT OR POSITIVE**

Info  
as of  
9/9/20 v3

**IMPORTANT! This is a GUIDELINE to help share the processes in place to help our campus navigate through COVID-19. This document will likely be updated as we continue to learn more and will be marked with an "As of Date" and a Version #.**

WHAT IS A "CONTACT": *GENERALLY*, individuals are not considered by the Health Department to be a contact unless they were within 6' of a positive person for longer than ten minutes. Wearing a mask greatly reduces this exposure. If you remain 6' away from everyone AND you keep your face covering on, you will likely NOT be considered a contact. This varies case by case and contacts will be determined by the local health department, not Shepherd University.

NOTE the DIFFERENCE: Health Center-located at Shepherd University; Health Department-county level health authority

**Shepherd University Health Center: 304-876-5161 or [healthcenter@rams.shepherd.edu](mailto:healthcenter@rams.shepherd.edu)**
