

CRIME ANALYSIS AND CRIME MAPPING

Wednesday, January 30 | 12:10-1 p.m. | Erma Ora Byrd 103

DR. SHEFALI TRIPATHI, a certified senior police planner at the Gainesville Police Department in Florida, will educate in-service law enforcement personnel, individuals from the community involved in crime prevention, and students in criminal justice programs. This lecture will introduce the audience to crime analysis and touch upon the types of crime analysis, crime mapping, types of crime maps, and crime analysis as a profession.

As a member of her department's research and planning unit, Tripathi specializes in law enforcement planning, crime analysis, crime mapping, and justice data analytics, and she has more than 17 years of advanced spatial analysis experience in law enforcement, criminal justice, urban planning, and allied fields. Tripathi's recent work has focused on strategic planning, gang mapping, juvenile justice, and disproportionate minority contact.
