General Explanation/Definitions.

1. One student *FTE* (full-time equivalent) equals 15 credit hours for baccalaureate students and 12 credit hours for graduate students.
2. The % **change** is the difference between the most recent data and the first column of data, divided by the first column of data.
3. Numbers are for undergraduate and graduate students combined.

General Explanation/Definitions.

1. One faculty **FTE** (full-time equivalent) equals 12 hours of instructional responsibility for full-time faculty, and 15 hours of instructional responsibility for part-time faculty.
2. The **mean** is the average for five years.
3. The **% change** is the difference between the most recent and the earliest fall semester FTEs divided by the earliest fall FTE. For example, for CACT in Fall 2025, this would be $(18.68 - 17.75) / 17.75$.
4. Numbers include undergraduate instruction only.

General Explanation/Definitions.

1. **N** is the number of undergraduate students in degree programs offered by the department. This includes first and second majors.
2. **FT Fac** is the number of full-time faculty in the department including visiting faculty. This is generally a count of "bodies" from the faculty list produced by the Provost's office. For Fall 2025, faculty with six or more hours of reassigned time are counted as half-positions. Academic deans are counted as 0.25 positions. Faculty on sabbatical are not included.
3. The **N/FT Fac** is the ratio of students to faculty.
4. The **mean N/FT Fac** is the average N/FT Fac for the years shown.
5. The **change** is the current year's N/FT Fac minus the first year's N/FT Fac.
6. The **percentage change in majors** is the difference between the current year's number of majors and the first year's number of majors, divided by the first year's number of majors.

General Explanation/Definitions.

1. **N** is the number of students in minor programs offered by the department.
2. The **N change** is the difference in the number of students in consecutive years.
3. The **mean N** is the mean number of students over the years represented (five years).
4. The **mean change** is the sum of the annual changes divided by the number of annual changes.

Note that the C & I students are included both in the Education department and in the departments of their concentrations. The secondary education majors are included only in the departments of their concentrations.

The Advising F25 "majors" is the number of students in the Fall 2024 column multiplied by 2, as Joe Simplicio specified starting with the 2003 reports. "Fac" is the number of full-time faculty in the department in which the concentration is housed.

General Explanation/Definitions.

1. A **concentration** is a teaching specialty such as English or Biology. The C&I graduate students' concentrations have been added to their departments where applicable.
2. The **department** is the unit responsible for the concentration.
3. The numbers for each semester are the number of declared students in each concentration. Any given student may have more than one concentration.
4. The **mean** is the average of the annual number of students in a given concentration.
5. The **change** is the number of students in the current year minus the number of students in the first year.

General Explanation/Definitions.

1. **N** is the number of undergraduate students in degree programs offered by the department. This includes first and second majors.
2. **Secondary Education and C&I** is the number of Secondary Education and C&I students with concentrations housed in that department. "Housing" is considered to be in the department if the Secondary Education coordinator for the concentration is in the department. For EDUC, numbers include Secondary Education Social Studies concentrations; baccalaureate Elementary Education majors are not counted here.
3. **Total** is the sum of **N** and **Secondary Education**. Note that, for the EDUC department, this double-counts some students (as listed in the "Secondary Education and C&I" description above), and is therefore not likely to be useful.

Concentration housings are as follows:

- CACT:** Art
- CSME:** Mathematics
- EDUC:** Social Studies, C&I
- EHML:** English, Spanish
- MUSC:** Music
- NPS:** Biology, Chemistry, General Science
- RSES:** Health and Physical Education, FACS

General Explanation/Definitions.

1. The **ratio** is obtained by dividing the student FTE by the faculty FTE.
2. One faculty **FTE** (full-time equivalent) equals 12 hours of instructional responsibility and one student FTE equals 15 credit hours.
3. The annual **change** is the current year's ratio minus the prior year's ratio.
4. The **mean ratio** is the sum of the annual ratios divided by the number of years for which data are presented (five years).
5. The **change in ratio** is the current year's ratio minus the first year's ratio.
6. Numbers include undergraduate instruction only.

General Explanation/Definitions.

1. The **ratio** is obtained by dividing the student FTE by the faculty FTE .
2. **Lower level** includes 100 and 200 level courses.
3. The **% change** is the difference between the ratio in two consecutive years divided by the ratio of the earlier year.
4. The **annual change** (A. Chg.) is the current year's ratio minus the prior year's ratio.
5. The **mean ratio** is the sum of the annual ratios divided by the number of years for which data are presented (five years).
6. The **change in ratio** is the current year's ratio minus the earliest year's ratio.
7. Numbers include undergraduate instruction only.

1. Numbers are counts of graduates for the listed year. Here, the academic year runs from fall to summer.
2. The **mean** is the sum of the annual counts divided by the number of years presented (five years).
3. The **change** is the current year's number minus the first year's number.

General Explanation/Definitions.

1. One faculty **FTE** (full-time equivalent) equals 12 hours of instructional responsibility for full-time faculty. For part-time faculty, one FTE is 15 hours of instructional responsibility.
2. **SCH** is the total number of credit hours taken by students in courses in the department.
3. **Rank** is a numerical ranking of the department based on the number in question. Ranks run from 1 (highest rank) to 11 (lowest rank).
4. Numbers are for paid courses in undergraduate programs only.
5. Courses are all courses **not** explicitly listed as Core Curriculum courses in the appropriate Shepherd course catalogs. All GSPE courses are considered Core Curriculum, but no foreign language courses are included (as these are Core Curriculum requirements for B.A. programs only). Also, the Core Curriculum requirements in Writing in the Major and Capstone in the Major are not considered as Core Curriculum courses here.
6. Faculty FTE numbers for Core Curriculum courses cannot be directly or indirectly calculated from available data. Therefore, the numbers used here are calculated based on credit-hours of courses as taken by students, not as calculated for faculty workload reporting. This results in numbers discrepant from those used elsewhere for some departments.

Courses are all courses explicitly listed as Core Curriculum courses in the current Shepherd catalog. The Core Curriculum requirements in Writing in the Major and Capstone in the Major are not included here.

"Time" indicates the timeslot in which the class is running. For example, "10:00 AM" courses are those courses that are in session from 10:00 AM to 10:59 AM. These courses may start at some point during that hour, or may have started earlier and still be in session for part or all of that hour.

"% tot" is the percentage of the column total. In the "Total" line, percentages are computed based upon the line total (excepting Saturdays).

Online asynchronous ("OLA") courses are not included here. In Fall 2025, there were 56 of these.

"Standard" start times are those listed in the Fall semester course catalog with defined final exam schedules. These are:
 MWF: 8:10 AM, 9:10 AM, 10:10 AM, 11:10 AM, 12:10 PM, 1:10 PM, 2:10 PM, 3:10 PM.

All data derive from information collected by the Office of the Registrar.

"Hybrid" courses are courses with 1% - 99% online delivery.

"Online" courses are those courses taught entirely online.

"Courses" are sections which receive a unique CRN from the Registrar.

"% all" is the percentage of all courses taught that semester represented by the line. For example, for Fall 2025, the 217 online courses represent 24.6% of the 881 courses taught that semester.

"Non-traditional delivery" can include electronic or analog delivery (e.g., correspondence courses, satellite courses), but in practice usually indicates online delivery.

General Explanation / Definitions.

1. The student **FTE** (full-time equivalent) equals 12 credit hours.
2. The **HC** is the headcount of students enrolled in and taking courses in the degree program.
3. The **mean FTE** is the average FTE for the years shown.
4. The **change in FTE** is the change in the FTE from the current year to the earliest year shown.
5. Each student is counted once in each program in which s/he is enrolled. Students enrolled in multiple programs are thus counted more than once. FTE and HC totals, however, are nonduplicated - each student is counted once regardless of the number of programs s/he is enrolled in. Thus, HC and FTE totals may not match totals across the individual programs.

General Explanation/Definitions.

1. The **ratio** is obtained by dividing the student FTE by the faculty FTE.
2. One faculty **FTE** (full-time equivalent) equals 12 hours of instructional responsibility and one student FTE equals 12 credit hours. The ratio is the student FTE divided by the faculty FTE.
3. The annual **change** is the current year's ratio minus the prior year's ratio.
4. The **mean ratio** is the sum of the annual ratios divided by the number of years for which data exist.
5. The **change in ratio** is the current year's ratio minus the first year's ratio.
6. Numbers are for paid courses only.
7. Note: The significant increase in F-FTE and S-FTE for Education for Fall 2025 is due to corrections in paid/nonpaid coding status for EDPD courses, as implemented by the Office of the Registrar for this term.

General Explanation / Definitions.

1. **Level** indicates the level of the certificate program. PS = post-secondary; PB = post-baccalaureate; PD = post-doctoral.
2. The student **FTE** (full-time equivalent) equals 15 credit hours for undergraduates and 12 credit hours for graduate-level students.
3. The **HC** is the headcount of students enrolled in and taking courses in the degree program.
4. The **mean FTE** is the average FTE for the years shown.
5. The **change in FTE** is the change in the FTE from the current year to the earliest year shown.
6. Each student is counted once in each program in which s/he is enrolled. Students enrolled in multiple programs are thus counted more than once. FTE and HC totals, however, are nonduplicated - each student is counted once regardless of the number of programs s/he is enrolled in. Thus, HC and FTE totals may not match totals across the individual programs.
7. Note: Certificate students often take their certificates as a secondary program. The FTE counts count all instructional activity by that student, regardless of whether courses are intended for the certificate or for another program.

Numbers of graduates are computed using the fall, spring, and following summer of the stated year.

Except for Tables 24 and 31-33, all tables are for undergraduate degree-seeking students only and the census date (10/15/25) HEPC Student file is the source of data. Only credit-earning students are counted unless noted otherwise.
